

Case Compensation Maximums for CJA Service Providers Increase:

On May 27, 2010, the case compensation maximum amounts were raised for providers of investigative, expert and other services. District court pre-approval is required for compensation of services which exceed \$800 (previously \$500). If in excess of \$2,400 (previously \$1,600), the district court and the Fifth Circuit must pre-approve. Please be aware that approval is required before the investigative, expert, and other services are rendered.
